

Are you a Mathematician, Computer Scientist, Physicist or an Engineer from another field (with MSc or PhD) looking for a challenging job that requires your analytical thinking, creativity and passion for programming? As

Innovative Problem Solver - Software Engineering *Life Insurance / Fintech*

you will be independently proposing, designing and implementing software solutions. You follow a no-nonsense agile methodology and develop test-first. In our flat-hierarchy organization everybody is responsible for both writing software and interacting with customers to gather requirements, manage projects and constantly contribute to the company's innovative spirit.

We'd love to hear from you if:

- you are enthusiastic about **programming** (experience is not mandatory) and willing to learn
- you embrace autonomy and exhibit a high degree of accountability
- you **take pride in creating smart and finely crafted solutions** that help your customers
- you enjoy working with people and people like to work with you

You will find:

- an international and buzzing team, committed to supporting and helping
- an informal and barrier-free working environment
- plenty of room to pick your challenges and responsibilities

Do you wish to hear more about it?

Please send your CV & motivation letter and preferred location (Zurich, Luxemburg or Barcelona) to hresource@lifeware.ch. Inès is looking forward talking to you soon !
